Henny Penny display counter warmers are designed for accumulating, holding and displaying hot fresh food for serving or packing at the point of sale in retail foodservice operations. Solid tempered glass front and removable sliding glass control side doors make the Henny Penny CW counter warmers ideal for up front fresh food presentation and convenient customer service.

The CW 216 with two-tier display a unit with upper and lower heat, and water reservoir humidity. Upper tier in CW 216 operates dry only.

Humidity in the CW 216 is generated by a full-length heated auto-fill reservoir in the base. Separate temperature controls for reservoir and heating for each tier. Units are also designed to accommodate steam table pans as well as sheet pans, further increasing the variety of foods that can be profitably displayed.

Units are built from high quality tempered glass and stainless steel, and are insulated for energy efficient operation.
